ABOUT

I am a 27 y/o freshly graduated student from a fullstack web developer course and now looking to start working at an entry level position to learn, improve and grow.

I am:

- Dedicated
- Diligent
- Punctual
- Patient

SKILLS

- JavaScript
- React
- NodeJS
- Express.js
- Rest API
- ES6
- OOP
- MongoDB

PROJECTS

Ecommerce Website

Student

- A final project that includes the building of both the frontend and backend of a computer shop website.
- Frontend uses React, Material UI and React Bootstrap while the backend utilizes Express.js and MongoDB.
- Featuring bold colours and design

Business Card Website

Student

- The frontend of a website that revolves around showcasing digital business cards along with their creation and managing.
- Uses a combination of React, JavaScript and Material UI.
- Wrapped in a modern and fully responsive design

Portfolio Website

Student

- A portfolio website that is used to display the skills I have acquired and the works that I have created.
- Uses JavaScript, HTML 5, CSS 3, SASS and Bootstrap.
- Designed accurately and responsively following a requested template.
